

A selective insect growth regulator for the control of whiteflies, scales and mealy bugs in vegetables, flowers and fruit trees.

ACTIVE INGREDIENT	Contains 400g/L Buprofezin (40% w/w).
FORMULATION	Suspension concentrate.
REGISTRATION NO:	PCPB (CR) 0276
MODE OF ACTION	Applaud affects both the nymphs and the adult through vapour action, stomach and contact poison. Larvae / nymphs treated with Applaud die through inhibition of moulting while ovipositioning of adults is suppressed or unhatchable eggs are laid.
SPECTRUM OF CONTROL	Hemiptera species such as whiteflies, scales, mealybugs, planthoppers and leaf hoppers.

RECOMMENDATION

CROP	TARGET PEST	DOSAGE (L/HA)	PRE-HAVEST INTERVAL (DAYS)	MAXIMUM NO OF SPRAYS PER SEASON	METHOD OF USE
Citrus	Mealybugs, Scales, Whiteflies	1.0	7	3	Foliar Spray
Passion Fruit	Mealybugs	0.75	7	3	Foliar Spray
Other Fruit Trees	Whiteflies, Planthoppers	0.75	14	3	Foliar Spray
Flowers	Whiteflies	0.5 - 1.0	-	3	Foliar Spray
Tomatoes	Whiteflies	0.75 - 1.0	3	3	Foliar Spray
Cucumbers	Whiteflies	0.75 - 1.0	3	3	Foliar Spray
Onions	Whiteflies	0.75 - 1.0	3	3	Foliar Spray
French Beans	Whiteflies	0.75 - 1.0	3	3	Foliar Spray

For 20 litre Knapsack sprayer, use 20ml of Applaud

MAIN ADVANTAGES

- Applaud shows a high level of activity against Hemiptera group of insects such as whiteflies, scales, plant hoppers, mealy bugs and leg hoppers causing them to die at maturity.
- Applaud causes suppression in the ovipositioning and / or cause insects to oviposition unhatchable eggs.
- Applaud reduces the population of nymphs and adults in the next generation and prevents the development of the insects with a long lasting effect.
- Applaud is highly selective even in Homopterous insects and has no effect on Lepidopterous, Dipterous and Hymenopterous insects hence an advantage for use in integrated Pest Management Programs.

AVAILABLE PACKS

1 Litre

HANDLING PRECAUTIONS

Do not smoke, drink or eat while using this product. Wear safety goggles and protective clothing when handling the product. Toxic to fish and aquatic invertebrates. Do not contaminate water sources by disposal of the product waste.

ENVIRONMENTAL HAZARD

Toxic to fish and aquatic invertebrates, and no direct effect on honeybees and silkworms. If used according to the label instructions, Applaud should cause no environmental hazard.

FIRST AID INSTRUCTIONS

In case of eye contact: Immediately flush with copious quantities of water for a minimum of 15 minutes. Seek medical attention.

In case of skin contact: Wash affected area with soap and plenty of water. Remove contaminated clothing. If an irritation on the skin occurs get medical advice.

In case of inhalation: Remove the affected person to fresh air, assist breathing and get medical attention if necessary.

In case of ingestion: Do not induce vomiting to a convulsing person. If conscious, give large amounts of water and get medical attention.
