

ROSASOL-N

WATER SOLUBLE FERTILIZER

FOR VIGOROUS VEGETATIVE GROWTH IN ALL CROPS.

EC FERTILIZER
NPK: 30*10*10 + TRACE ELEMENTS

30% Total (N) - as Nitric, ammoniacal and Ureic nitrogen.

10% Water - soluble phosphorous pentoxide(P_2O_5)

10% Water soluble potassium oxide(K_2O)

Trace elements:

100ppm Boron(B), 75ppm(CU)EDTA chelated, 260ppm iron(Fe) EDTA chelated,
320ppm manganese (Mn) EDTA chelated, 230ppm Zinc(Zn) EDTA chelated.

PH range for good EDTA stability 2-8.

DISTRIBUTED IN KENYA BY:

TWIGA CHEMICAL INDUSTRIES LTD.
P.O. BOX 30172, 00100, GPO, NAIROBI, KENYA.
TEL: 254-020-3942000, FAX: 3942405

MANUFACTURER:

S.A ENGRAIS ROSIER Rue du Berceau
1, B-7911 Moustier (Belgium)
Ph. +32 69 87 15 15 or + 32 69 87 15 52
Fax: +32 69 87 17 02

ROSASOL-N

WATER SOLUBLE FERTILIZER

DIRECTION FOR USE

Rosazol-N can be used in all types of fertigation systems (drip,microjet,capillary and sprinkler) to prevent or treat deficiency of various elements

For Fertigation system:- Mix 1 to 3 gms of **Rosazol-N** per litre of irrigation water.

- The above recommendations should be adapted according to differences in climate, soil, temperature, varieties ,yields and irrigation systems.
- For more information you may contact local **Rosazol-N** dealer or your Agronomist.

For foliar treatment:- A 0.5% solution,either mix 1kg of **Rosazol-N** in 200 litres or 5kg in 1000 litres of water per hectare(100gms in 20 litres of water). Apply to crops to prevent or treat deficiency .Repeat 2-3 times ,if necessary. **Rosazol-N** is compatible with majority of pesticide products. Nevertheless, we recommend that you make small scale test in order to check the physical compatibility between products

GENERAL RECOMMENDATIONS FOR ROSASOL-N USE AND STORAGE.

- Add **Rosazol-N** gradually to the water filled mixing tank while stirring the solution.We recommend temperature of 20⁰c. In case of mixing **Rosazol-N** with different products, add **Rosazol-N** first and the other products afterwards.Do not mix **Rosazol-N** with products based on calcium.
- For foliar treatment,apply **Rosazol-N** during overcast weather or in the evening.Avoid spraying at temperatures above 30⁰C.
- Store **Rosazol-N** away from direct sunlight,in a well ventilated warehouse.Protect **Rosazol-N** from humidity during handling and storage.
- Keep **ROSASOL-N** away from children.
- In case of contact of Rosazol-N with eyes,rinse thoroughly with clean water. See a doctor.
