

codasal plus 2000

GUARANTEED ANALYSIS	% w/w	% w/w
Calcium Oxide (CaO)	12.3	17.5
Complexed and water soluble		

Complexed by: Organic Acids

PROPERTIES

codasal plus 2000 is a calcium liquid complex that contains several organic acids that give bigger efficiency to the product as a corrector of lack of calcium in any kind of soil.

codasal plus 2000 solves three basic problems in crops:

- Calcium nutrition deficiencies.
- Disponibility of macro and micronutrients.
- Excess of salts in soil or water

codasal plus 2000 increases hardness, conservation and quality of fruits and flowers. Its use is also adapted as a water and soil salinity corrector and as an ameliorator of the agricultural soils structure

OBSERVATIONS

S2: Keep out of the reach of children.

S26/28: In case of contact with eyes or skin, rinse immediately with plenty of water and seek medical advice.

S37/39: Wear suitable protective clothing, gloves and eye/face protection.

S45: In case of accident or if you feel unwell seek medical advice immediately (show the label where possible)

Storage optimal temperature: 5-25⁰C

Do not pile up more than three containers of height.

Do not mix with phosphoric acid

SHAKE WELL BEFORE USING

Agricultural Use

Prod. date:
Expiry Date
Batch No.

Net Content: 20 Liters

Manufacturer warrants that the product conforms to the chemical description stated on the label and doesn't assume the responsibility of any inadequate use. Carefully read this label before using.

COMPLEXED CALCIUM FOR FOLIAR AND SOIL APPLICATION.

Manufactured by:
coda Sustainable Agro Solutions, S.A.
Ctra. N-240, Km. 110 - 25100 Almacelles - Lleida - Spain

APPLICATION METHOD AND DOSES

CALCIUM CORRECTOR

codasal plus 2000 includes a complexed Calcium high concentration (170 gr/l CaO) that facilitates the assimilation of calcium by the plant using irrigation systems

The average doses are:

CROPS	FERTIGATION - DOSE	USAGE - OBSERVATIONS
Strawberry	5-6 L/ha- application	Apply weekly during the crop cycle
Tomatoes	Open field: 4- 6 L /ha-applications Green house: 1 L /1000m ² -application	Apply weekly
Roses	2-3 L /ha-Foliar application	Apply every 15 days
Broccoli	5L/ha Drip application	Apply every 10-15 days

codasal plus 2000 is specially recommended in strawberry, apple, tomato, pepper, table grape, citrus, roses and horticulturals in general. codasal plus 2000 supplies calcium in an equilibrated and constant way, increasing quality, hardness and postharvest conservation of fruits.

SOIL AMELIORATOR: DRIP IRRIGATION

Drip irrigation may sometimes cause excessive fertilizer concentration in the irrigation points. The use of **codasal plus 2000** at the beginning of the crop unblocks the saline concentrations with the consequent benefit for the crop setting. The average recommended doses are:

SOIL TYPE	codasal plus 2000
Sandy	10-12l/ha
Loam	12-15 l/ha
Clay	15-20 l/ha

SODIC-SALINE SOIL CORRECTOR:

The recommended dose depend on the salinity analysis
The average recommended doses are:

IRRIGATION TYPE	codasal plus 2000
Drip irrigation	30-50 l/ha
Total area irrigation	70-120 l/ha

SALINE WATER CORRECTOR:

The recommended dose depends on the crop sensitivity and the soil texture. The average recommended doses are:

Dose: 20-40 cc
codasal plus 2000 per m3 irrigation water
