

## Water Soluble Powder

21.N2.9832

# Amilyte

Amilyte is a well-balanced water soluble supplement consisting of bioavailable sources of vitamins, essential amino acids and electrolytes. It is an effective supplement in alleviating all stress factors and promotes optimum production and growth performance of poultry and livestock animals.

### Composition/kg

Vitamin A	18.0 MIU	Biotin	15.0 mg
Vitamin D3	4.0 MIU	Vitamin B12	10.0 mg
Vitamin E	6.5 g	Vitamin C	12.0 g
Vitamin B2	3.5 g	Threonine	5.0 g
Vitamin K3	2.0 g	Lysine	20.0 g
Nicotinic Acid	17.0 g	Methionine	10.0 g
Pantothenic Acid	7.0 g	Magnesium	6.0 g
Folic Acid	0.4 g	Potassium	7.5 g
Vitamin B1	1.5 g	Sodium	20.0 g
Vitamin B6	2.5 g	Citric Acid	18.0 g

### Indications

**Vitamins** are micronutrients that act as catalysts in metabolism and are essential for normal body functions. Sufficient amount of vitamins will ensure optimum growth, maximize egg production, enhance immunity and fertility and improve feed efficiency of animals.

**Amino Acids** are essential in the animals' body. Amino acids have diverse functions. As proteins, these are the primary constituents of structural and protective tissues, such as skin, feathers, bone matrix and ligaments, as well as of the soft tissues, including organs and muscles. If dietary amino acids are not sufficient, weight gain, productivity and other growth performances will drop and will negatively affect the functions of the vital tissues.

**Electrolytes** help regulate nerve and muscle functions, and maintain acid-base balance and water balance of the animal's body. Supplementation of electrolytes is a must when animals are under stress condition, most especially during heat stress.

### Dosage & Administration

**For Continuous Treatment** - Dissolve 100 g per 200 L of drinking water

As a source of micronutrients in tropical conditions and for intensive production methods. It also provides essential amino acids to promote growth and improve feed conversion.

**For Intensive Treatment** - Dissolve 100 g per 100 L of drinking water.

As supplements against stress arising from diseases, weather, vaccinations, transportation, debeaking, etc. To minimise the negative effects of stress on the growth of animals. Amilyte should be used at least 7 days or until appetite is regained.

### Imported & Distributed by

Zagro Corporation  
7/F Raha Sulayman Building  
108 Benavidez Street  
Legaspi Village, Makati City  
Philippines  
Tel: +63 810 1340  
Fax: +63 810 2526
